# WHY ALTISPACE

At Altispace, we manufacture high quality products that offer a wide range of acoustical and laminate beams and shapes for your cloud space. We provide our cost-effective products to the market as a result of our efficient engineering and manufacturing processes. Each product comes supplied with complete suspension systems and instructions. When you receive your product it's ready for easy installation! We are a dedicated team every step of the way – from estimating, project management and technical support, our team is ready to help you from the first inquiry to your completed installation.

- Clear and comprehensive submittal and installation packages
- Single-source manufacturer for laminate, veneer and acoustic products
- Customization options available, such as integrated LED lighting
- Made using lightweight panel construction

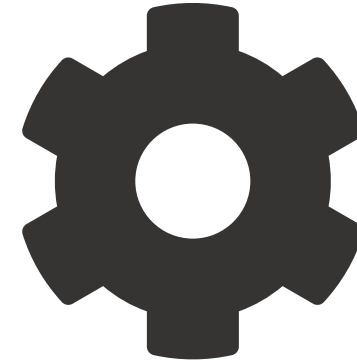

## SUSTAINABLY MADE

Our products are made using eco-friendly materials and processes.

## QUICK LEAD TIMES

With our single source manufacturing capability, we produce your projects in a short lead time, making sure your project is delivered in full on time!

## CUSTOMIZATION

With hundreds of options, we can make your products to the exact size and color you need for your project.

# BEAMS

## FEATURES

These horizontal beams add new dimensions to your cloud space with a lightweight and stylish design that are simple to install. Available in 72 standard sizes and 21 standard color options, you can create the perfect solution for your project.

- Made using lightweight panel construction
- Made with eco-friendly materials and processes
- Flexibility in design and customization, such as integrating LED lighting
- Easy to install and supplied with complete suspension systems and instructions

## LIBRARY

Our Acoustic Blades transformed this library space with their colorful style and sound absorbing qualities.

## OFFICE COMMON SPACE

This office space added some Acoustic Blades and Acoustic Shapes to their space to reduce the noise levels in the open area of their common space.

A modern office interior featuring a series of wooden acoustic panels suspended from the ceiling in a staggered, geometric pattern. The office has a brick wall, a black sofa, and several white desks with black ergonomic chairs. Laptops are open on the desks. The lighting is a mix of recessed ceiling lights and pendant lamps.

# SHAPES

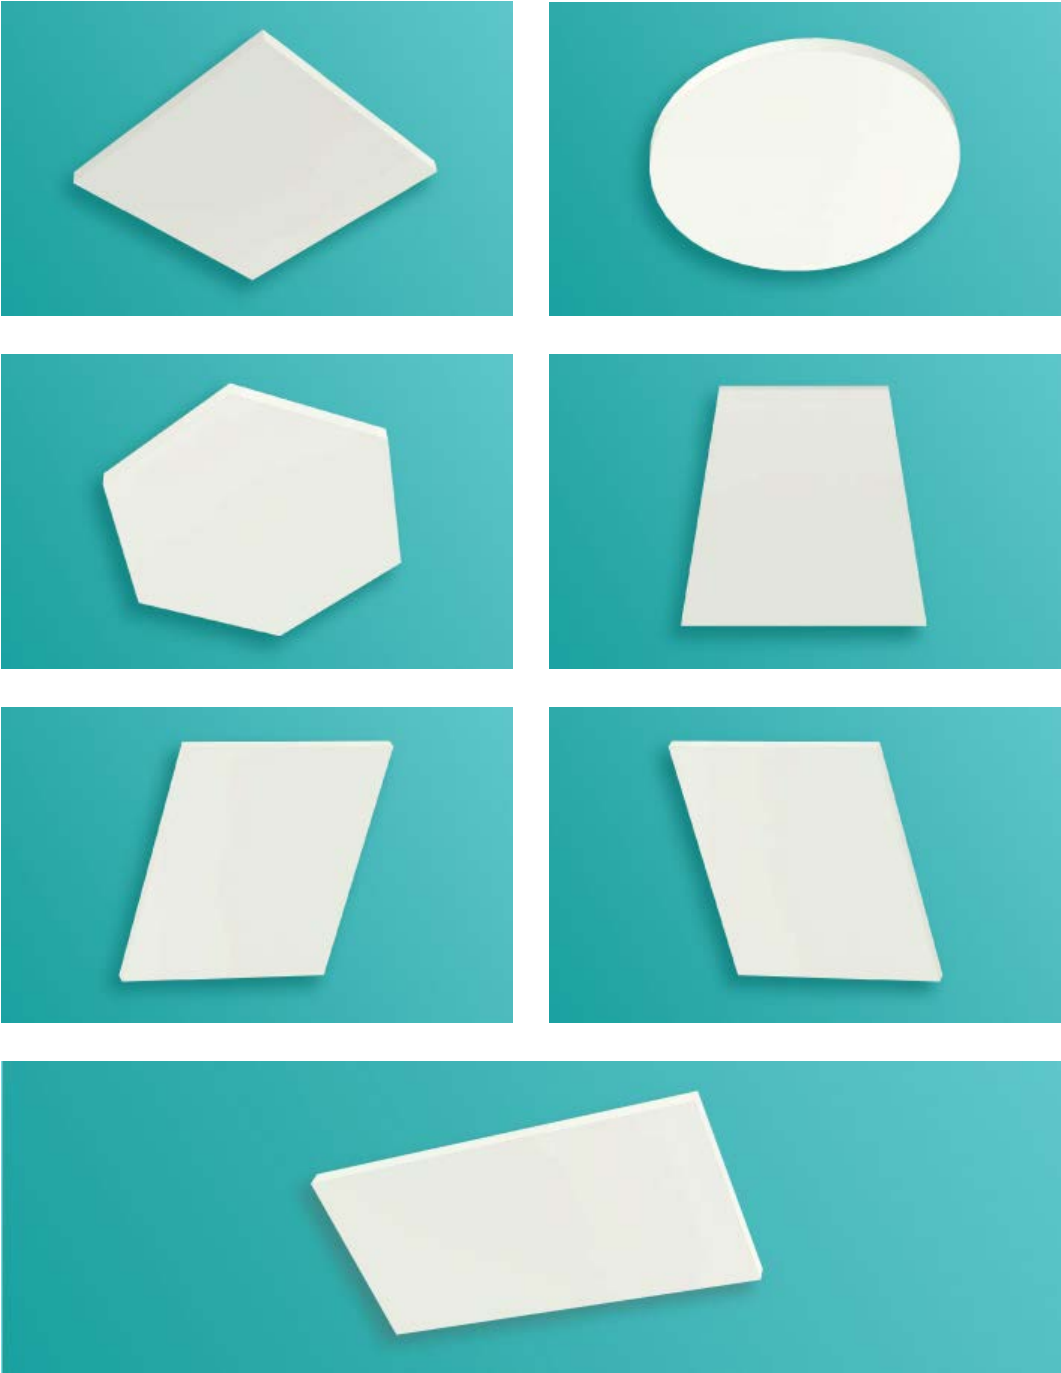

## FEATURES

These shapes will elevate your space with their lightweight and whimsical design, and can be customized to redefine your cloud space. Available in 7 standard shapes, 31 standard sizes and 21 standard color options, you can create the perfect solution for your project.

- Made using lightweight panel construction
- Made with eco-friendly materials and processes
- Flexibility in design and customization, such as integrating LED lighting
- Easy to install and supplied with complete suspension systems and instructions

# SIZES

## Length and Height

24 in x 24 in	24 in x 48 in (Rectangle Only)	30 in x 30 in	36 in x 36 in
