WHY ALTISPACE

At Altispace, we manufacture high quality products that offer a wide range of acoustical and laminate beams and shapes for your cloud space.

We provide our cost-effective products to the market as a result of our efficient engineering and manufacturing processes. Each product comes supplied with complete suspension systems and instructions. When you receive your product it's ready for easy installation!

We are a dedicated team every step of the way – from estimating, project management and technical support, our team is ready to help you from the first inquiry to your completed installation.

- Clear and comprehensive submittal and installation packages.
- Single-source manufacturer for laminate and acoustic products.
- Customization options available, such as integrated LED lighting.
- Made using lightweight panel construction.

SUSTAINABLY MADE

Our eco-friendly products are crafted with sustainable materials and processes, making a positive environmental impact.

QUICK LEAD TIMES

With a lead time of 4 to 6 weeks, we ensure your project is delivered right on schedule!

DOMESTIC PRODUCTION

Proudly manufactured in North America, our products adhere to the highest standards of quality and craftsmanship.

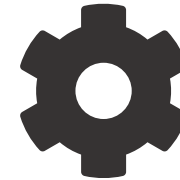

CONSULTATION

Our team provides support at every stage of your project, from initial inquiries to final installation, with thorough submittal packages.

STATE OF THE ART FACILITY

Our 80,000 sq ft manufacturing facility is equipped with advanced PUR laminating lines, robotic sizing, CNC beam saws, ensuring precision and efficiency in every product.

CUSTOMIZATION

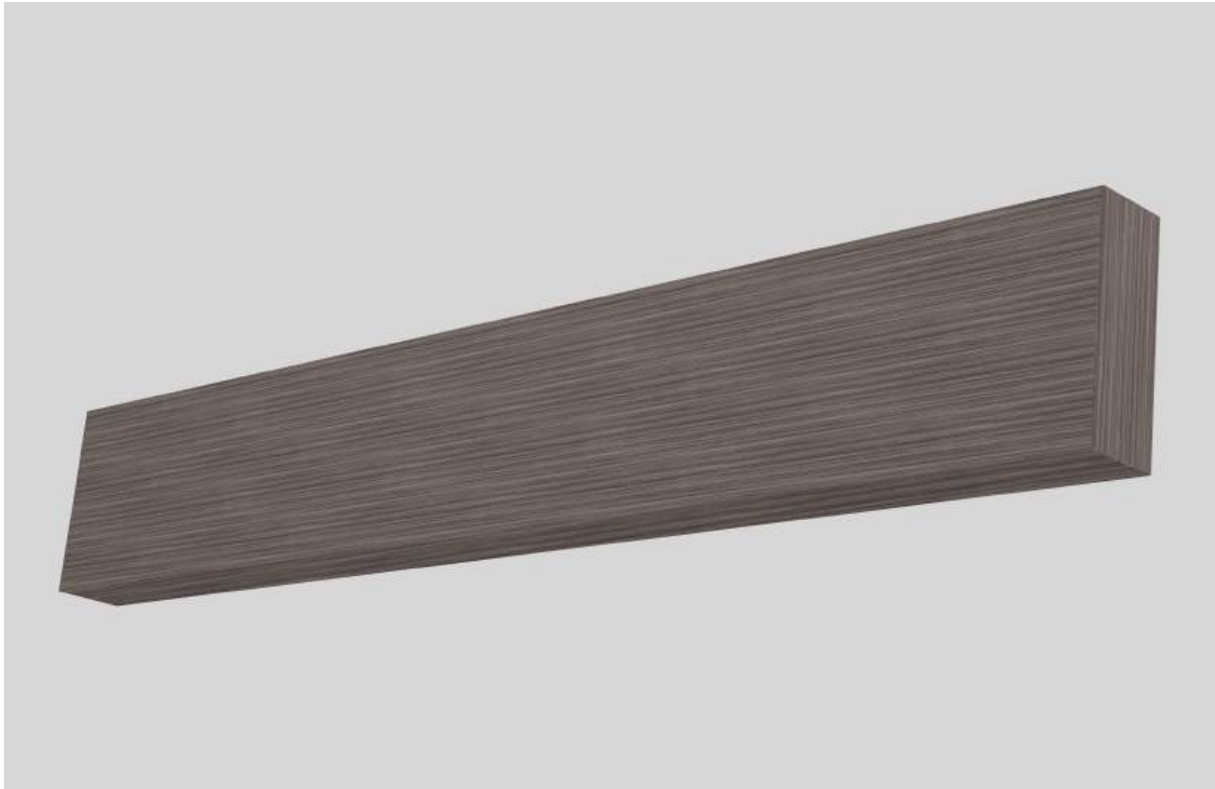

With hundreds of options, we can make our products to the exact size and color that you need for your project.

FEATURES

Specify our Beams horizontally or vertically to add new dimensions to your ceiling or wall space with a lightweight and stylish design that is easy to install. Available in 72 standard sizes and 21 standard color options, you can create the perfect solution for your project.

- Made using lightweight panel construction.
- Made using eco-friendly materials and processes.
- Flexibility in design and customization, such as integrating LED lighting.
- Easy to install and supplied with complete suspension systems and instructions.
- Exceptional build quality.
- Class A Fire Rating, ASTM E-84 test and CAN/ULC-102.
- Intertek Clean Air GOLD Certified CDPH 01350 v1.2.
